

Letter to BCMA Section of Clinical Faculty Members

15 December 2008

Dear Member

We wrote to you recently informing you that the BCMA Board passed a resolution at their November meeting to poll BCMA members regarding the UBC Clinical Faculty contract offered by UBC. We have been informed by the President of the BCMA that this poll will not be undertaken by the BCMA until the spring, and that this is too long to wait to sign the contract.

We have written to UBC asking the following questions:

As this is a contract between UBC and individual Clinical Faculty, what is the process for a Clinical Faculty member to discuss changes to the contract with UBC - is it through the Department Head or your office?

Could you please inform us of the status of Clinical Faculty if they do not sign the contract or resign their position?

We would suggest that you wait until we have a response from UBC to respond to the letter from UBC if the answer to these questions will be helpful with your decision.

We apologize for the delay in this process.

Yours truly

BCMA Section of Clinical Faculty Board
